*Classes in Medical Gas Installation - Inspection - Maintenance*

**Letter of Continuity for Brazing**

This letter is a record of brazing history for the period between the renewal of certification and updated code or standards. This record must be maintained by the individual for his record of Continuity. A copy of record must be submitted with the application to update to a new standard.

**Brazer's Name** \_\_\_\_\_

**Address (home)** \_\_\_\_\_

**METC Identification No.** \_\_\_\_\_

**Date of Original Certification** \_\_\_\_\_

The following is an affirmation and witnessed statement of record for procedure of QB-484 of the ASME section IX Boiler and Pressure Vessel Code. Falsification will result in revocation of credential.

A brazer must braze with a qualified procedure every 6 months and maintain his own record.
